

SHOWCASE™ Institute

WHAT DOES IT DO?

Instant weight and measurement loss!

Commercial Claims:

Sweat away an unwanted fat, eliminate cellulite, lose weight and ease muscle pain, all while sitting in the comfort of your own home?

Reality: What is really does is remove water weight and inches. It

also eases muscle pain. Of course in comfort of your own home or office

The **Sauna Wrap Slimming Belt** focuses the sauna heat on the most problematic body parts to help flush out and eliminate toxins.

This portable sauna is great for the abdomen, waist, back and hips. Just apply the **Belt** around the chosen body part and let the belt do all the work. It will stay firmly in place with the secure Velcro attachment. After using the sauna wrap, your metabolism will be enhanced and the pounds will just melt away.

Made for men and women, simply wrap the Sauna Wrap Slimming Belt around your body and with the press of a

button you're sweating away-unwanted water weight and inches!

2. What other things I have to do see the result?

- A. Drink lots of water atleast 2 liter of water per day. Do not supplement with coffee, alcohol or fizzy drinks. Avoid hydrogenated oils and saturated fat. Wear workout clothes and a sweatshirt - this is to keep you warm and encourage more sweating - the more layers the better. Although the package shows people wearing very little. We found that you didn't really sweat unless your whole body is warm.

3. What are the applications and recommendations?

- A.
- Do not use any kind of skin cream or similar product while using the Sauna Wrap. As your skin pores will be fully open and skin cream could cause an allergic reaction.
 - Do not use Sauna Wrap immediately after meal wait atleast 2 hour after eating. For best results you should use Sauna Wrap for 50 minutes at a time. Do not exceed 50 minutes per session.

4. Is Sauna Wrap is a permanent wait loss system?

- A. **No, this will temporary reduce your waist size, which will cause water loss initially and returns within a day or 2.** Without following the diet plan and getting some exercise there won't be a major change. Major benefit - didn't quite make your weight goal for that wedding or can't fit into the party dress or the

suit pants - this will get you some quick help - but it won't keep you there on it's own. Although the loss of 2 cm initially happens you don't get an additive loss of 2cm each day you wear it.

This as a temporary tool on its own or a program when used in conjunction with exercise and a reduced diet.
