## WHAT DOES IT DO?

The Swivel Sweeper is the new floor and carpet sweeper that lets you clean dirt and messes faster and easier than ordinary cordless sweepers. It combines the cleaning power of Quad Brush Technology - powerful rotating cleaning brushes that pick up dirt and messes from all four sides of the sweepers' head.

- Powerful, rotating brushes that pick up dirt and messes from all 4 sides
- Head swivels 360 degrees allowing you to maneuver around furniture
- Can be used on tiles, wood and carpet without fear of scratching
- Gets into hard to reach places and corners
- Easy to store
- Quiet
- One hand operation
- Cordless - you can use it anywhere
- Lightweight - weights .9 kgs.
- Extendable handle
- Rechargeable Battery
- Removable dust trays for quick and easy disposal of dirt
- Made of durable plastic and aluminum

The lightweight Swivel Sweeper weighs less than 2 pounds. It is cordless. It has cleaning brushes on all four of its sides. It swivels with a twist of its light weigh aluminium handle. **This makes it an ideal tool for rapid clean ups on virtually any surface and around any obstacle.**

You are cordless! The rapid charge battery can store enough power to clean a carpet in a **SHOWCASE** store **TWICE** without recharging (2400 square feet of carpet). No cords means no hassles associated with finding and repositioning plugs of ordinary vacuums.

Bagless! The Swivel Sweeper is bagless allowing for cost savings and convenience. When you are finished sweeping simply empty the dust tray in the trash. No handling dirty vacuum bags simply dump and go.
